Ideation Phase
Brainstorm & Idea Prioritization Template

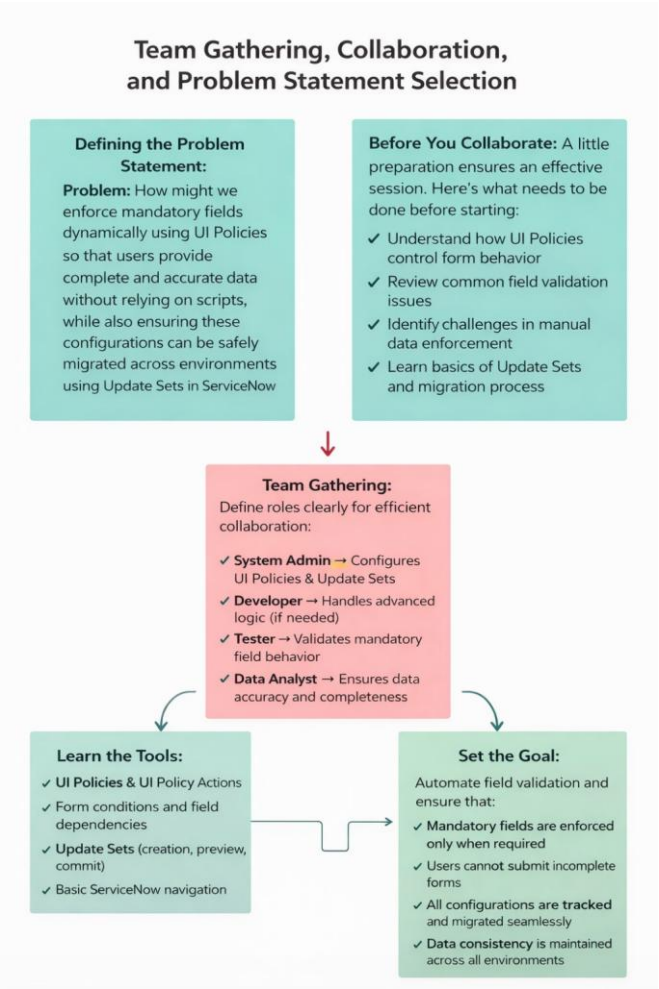
Date	08 Apr 2026
Team ID	SWTID-2026-8559
Project Name	Enforcing Mandatory Fields Using UI Policies and Migrating Changes with Update Sets
Maximum Marks	4 Marks

Brainstorm & Idea Prioritization for UI Policy Enforcement & Update Set Migration:

This brainstorming session focuses on simplifying and strengthening the implementation of UI Policies and Update Set migration within ServiceNow. The goal is to move beyond static form validation and explore dynamic, condition-based enforcement of mandatory fields that adapt to real-time user input.

By fostering an open and collaborative environment, the team aims to identify all possible **field dependency scenarios**, ensuring that mandatory enforcement is applied intelligently rather than universally. This includes analyzing conditions such as state transitions, role-based access, and contextual form behavior to create a seamless and error-free user experience.

Step-1: Team Gathering and Problem Selection



Step-2: Brainstorm, Idea Listing, and Grouping

Advanced Automation, Data Integrity & UI Enhancements

Automation

- ✓ Use AI to predict field mapping
- ✓ Create "Auto-Mapping" templates for common Excel formats
- ✓ Scripted REST APIs for real-time import

Data Integrity

- ✓ Auto-validation of reference fields
- ✓ Duplicate detection during staging
- ✓ Pre-import data cleaning scripts

User Interface

- ✓ Drag-and-drop UI Policy builder
- ✓ Visual relationship maps
- ✓ "One-click" UI Policy migration

Step-3: Idea Prioritization
