Ideation Phase
Define the Problem Statements

Date	08 April 2026
Team ID	SWTID-2026-8559
Project Name	Enforcing Mandatory Fields Using UI Policies and Migra ng Changes with Update Sets
Maximum Marks	2 Marks

Customer Problem Statement Template:

A well-defined implementation approach helps you and your team efficiently enforce data consistency and manage system changes. By **Enforcing Mandatory Fields Using UI Policies**, you can ensure that users provide all required information during form submission, reducing errors and improving data quality. Additionally, **Migrating Changes with Update Sets** allows you to safely move configurations and customizations between different environments, such as development, testing, and production.

Throughout this process, you will also gain a better understanding of how users interact with forms and system changes, helping you simplify implementation and effectively manage platform customization.

:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	System Administrator	Enforce Mandatory Fields Using UI Policies	Users skip required fields or forget to enter needed information	Forms don't validate required data	Stressed
PS-2	System Administrator	Migrating Changes with Update Sets	Manually tracking and moving changes between environments is risky	Changes need to be migrated from development to test to production	Stressed
